

PLEA TO UPHOLD
CONSTITUTION IS
HEARD AT CHURCH

Col. Alfred Moudy, Member
Of Flying Squadron, Is
The Speaker.

HELP TO PROMOTE
GENERAL WELFARE

Law Enforcement Efforts
Necessary; Law Will
Not Work Itself.

With an appeal to the American citizenship to uphold and protect the constitution of the United States, "for it is the foundation of our liberties," Col. Alfred L. Moudy of the Flying Squadron closed a forceful address at the church Friday evening at the Christmas

This was one of the meetings of the three-day sessions being held by the squadron at this church in the interest of prohibition and law enforcement.

"The first words of the preamble are: 'We, the people of the United States.' The people are responsible for our officers and the character of the people elected," he said.

"The most important words in the preamble are: 'To form, to insure, to provide, to promote and to secure.' Every part of the constitution and every amendment to the constitution bears some relation to one or all of these words."

Promote General Welfare

The speaker passed hurriedly over the first three words and emphasized "to promote the general welfare." "Much of the work that is done in governmental affairs is for the promotion of the general welfare of the citizens, the community and the state and nation."

"The churches, the schools, colleges and universities exist for the purpose of promoting the general welfare."

"The amendments to the constitution including the eighteenth and nineteenth were added for the purpose of promoting the general welfare."

"The constitution itself was formed by our forefathers in order that the welfare of the nation might be secured. Our responsibility is to maintain the blessings given us by our forefathers and to secure them for future generations."

At the afternoon meeting Col. Moudy declared that any political party which did not declare itself for the enforcement of all the laws is not worthy of the support of liberty-loving people.

"If we had a little of the determination manifested by the boys in the World War, there would not be a boot-licker in this or any other town," he declared.

Effect Of Liquor
Mr. Moudy told his audience that the home, the school, the church and the government were all constructive institutions.

The children from homes where liquor is used by the parents do not have the same chance as those who come from normal homes, for they are only interested with their physical and mental out, "The school destroys the influence of the church," he said.

"We have every reason to be glad over the victory we have won, but the fight is not over. This law will not work itself. The people have to use it. You and I have to use it."

"The people breaking this law are 90 per cent foreign element, and the other 10 per cent are lowdown Americans."

"Should those who have this great country's welfare at heart permit this element to control the country?" he asked.

COVERED WAGON
TRIP IS PLANNED

Grangers Of Columbiana
County May Start
Unique Trip.

Members of the several granges in Columbiana county are considering the sending of a covered wagon to Washington, as suggested by the Ohio State grange.

The decision to rig up a wagon will be determined within the next few weeks. One covered wagon was started from Mahoning county recently.

Should a wagon be started from this county it will be made in relays. Some of the wagon from Lisbon to a given point, where it will be taken charge of by another driver.

This relay system will be followed until the wagon reaches Columbus and at that point the New York Central railroad has offered to transport the wagons from the different counties of the state to Washington, D. C.

Boys Will Deliver
Christmas Baskets

Boy Scouts of Salem have offered their services in delivering Christmas baskets and toys.

Why Ford Declared For Coolidge

Mr. and Mrs. Henry Ford.

The real reason Henry Ford refused to stand for the presidency and came out in the open for the candidacy of President Coolidge is Mrs. Henry Ford. She has no White House aspirations. It was she who stood loyally behind the poor mechanic when he was making his first motor. His friends say there is but one person in the world who can give Henry Ford orders, and she "ordered" him not to run for the presidency. It is Mrs. Ford, his life-long helpmate.

Beechwood Pupils Present
Fine Christmas Program

A Christmas tree was provided for the pupils of Beechwood school Friday evening when they presented a program in three parts at the school.

During intermission orchestra selections were enjoyed, the Beechwood string orchestra being composed of Misses Ruth and Eleanor Bates and Elbert Bates and Frank Yandling.

The following program was given under the direction of Miss Paula Fields, the teacher:

Part I—Selection by orchestra: song "Joy to the World" by the school; reading, "Something New About Christmas," Lester Maroski; Christmas quotations, Eddie Seroka; Steve Voros, Nick Maroski, Charles Dido, Joseph Kasso and John Seroka; song, "O Christmas Tree," school; dialogue, "Why Do Bells for Christmas Ring?" David Carey and Emma Kautz; Fifth chapter of Luke, school; song, "Of All the Stories Old and Sweet," school.

Part II—Song, "Three Cheers for Old December," school; song, "Soon You'll Hear the Sleighbells," school.

FAMOUS BARITONE
TO GIVE RECITAL

Cecil Fanning Will Sing At
High School Auditorium January 7.

The concert by Cecil Fanning, the American baritone, at the High school auditorium, Jan. 7, will be a noteworthy event in the city.

Mr. Fanning is a singer of national and international reputation. He is the artist selected by the American embassy to sing after the dinner given by the embassy to the king and queen of England. His colorful, emotional singing of negro "spirituals" seemed to touch the king deeply. He asked to have the singer present at the shaking hands ceremony, "I have never heard negro spirituals before. They are beautiful."

Fanning has a beautiful, naturally flowing voice combined with the perfect technique of the accomplished musician. He has won recognition in Europe and America as a singer belonging to that select group of the really great. Of Irish ancestry, he is emotionally responsive and puts a wealth of tender feeling, tragic intensity or whimsical humor into his singing.

The success which Cecil Fanning has achieved on the concert stage is a pleasing tribute to the worth of native genius, developed through American training. For the baritone is a native Ohioan and has received all his vocal training in this country.

Community service is giving the concert and tickets are now on sale. Reserved seats may be secured without additional charge.

BOMB EXPLOSION
DESTROYS HOME

Stonewall, Dec. 22.—Another case of violence attributed to black hands, was perpetrated early this morning when the home of Thomas Sabatino, Mingo Junction, south of this city, was almost completely destroyed by a bomb explosion.

The Sabatino family was sleeping on the second floor of their home when the explosion occurred, destroying the furniture, throwing the occupants from their beds, all of whom were considerably shaken and bruised and breaking windows for a block.

LEADER OF REBEL
TROOPS DENIES HE
MADE PEACE OFFER

Huerta Says Revolutionary
Movement In Mexico
Is Irresistible.

FEDERAL TROOPS
REPORT VICTORY

Rebel Chief Advancing In
Direction Of Mexico
City, He Reports.

St. Louis, Dec. 22.—Adolfo de La Huerta, leader of the Mexican revolt, denied categorically and emphatically in a message dispatched from Vera Cruz at 2 a. m. to F. M. Alvarez, Mexican consul here, that he had made any peace overture to the Oberon government.

"Brand as a lie the reports that I have solicited any support for an armistice with the Oberon forces," de La Huerta said.

"The revolutionary movement is irresistible and we shall triumph in the cause of justice and liberty. Federal troops are all demoralized and will not obey their officers."

Mexico City, Dec. 22.—Federal troops, commanded by Gen. Cruz, have defeated the Third rebel brigade under Gen. Sanchez, 30 miles south of Puebla after several hours of severe fighting, according to dispatches from the front to the War department today. The rebels were driven from the dominating heights around Panzocola and put to rout.

The revolutionaries are said to have suffered heavy casualties. Secretary of War Serrano denied a report that 399 federal troops in the state of Puebla had gone over to the rebels.

"No Man's Land"
A traveler, just arrived from the state of Jalisco said that there is a stretch of "no man's land" about 100 miles wide between the federal and rebel armies around Guadalajara.

Gen. Romulo Figueroa, commander of the rebels in the state of Jalisco, telegraphed to revolutionary headquarters that he is now advancing from Acapulco with 2,000 men in the direction of Mexico City. Acapulco is on the Pacific coast.

Gen. Marcel Cavazos, with 800 cavalrymen from the vanguard of Gen. Eugene Martinez' federal army, have gone over to the Huertistas. Announcement was made that their services were accepted and that they have been placed under Gen. Nueva Villa Garza's command.

Revolutionary officials claim that federalists are deserting wherever possible.

Abandonment Of Car
Service Postponed;
May Agree On Fare

Columbus, Dec. 22.—The state utilities commission has extended one month, or until February 1, its date for abandonment of service, on the West End Traction company's line, operating between Youngstown, Warren, Niles and Grand.

This action was taken when the commission was informed that Trans-Michigan county commissioners and citizens effected by the contemplated suspension of service are negotiating with the company looking toward adjustment of a dispute over fare.

AUTO ACCIDENTS
CLAIM 3 LIVES

Cincinnati, Dec. 22.—When Bart Hardin, 50, was killed by a motor car last night, the death toll of automobile accidents in Hamilton county rose to 131 for 1923.

Cleveland, Dec. 22.—Two additional victims were claimed in auto fatalities here last night. Henry Bogert, 32, was killed in the street in front of his home when he fell under the rear wheel of a passing truck and Miss Rose Lee, 51, was struck by another machine and killed as she alighted herself from rain while crossing a street.

Prohibition Agent,
Held For Extortion,
Says It's Frame-up

Stonewall, Dec. 22.—The arrest of John O. Cole, active prohibition enforcement agent here late last night on a charge of extortion, was today branded as a "frame-up" by Cole and by persons behind the state investigation now under way in this city and county.

Cole is held under \$4,000 bond by Justice Arthur Gorman on a charge of accepting bribes from Charles Appiretti, Piner Fork, who claims he paid Cole monthly installments for protection of his liquor business.

Treat For Children
Of Salvation Army

On Monday evening, Dec. 31, the Salvation Army will hold a special service at the hall, West Green at which the children who attend the Army's Sunday school will be treated and given toys. There will be a Christmas tree and program.

Last Sunday there were 42 in attendance at the school session, the officers report.

Sunday school will be held at 2:30 Sunday. The open air service will be at 7 followed by a service at the hall at 7:30.

Saturday Shortest
Day Of Year

Saturday is the shortest day in the year—by a fraction of a minute. That means that Dec. 21 will have to give its laurels to Dec. 12 when it comes to brevity of time that the sun shines on the earth.

The sun rose at 7:21 a. m. today and will set at 4:36 p. m. The same time goes for Sunday but a fraction of a minute also puts it out of the race.

Today, the sun rose at 7:20 a. m. and set at 4:31 p. m.

CHRISTMAS CAROL
SINGERS ASKED TO
REHEARSE SONGS

All Who Can Sing Urged To
Cather For Community
Song Service.

An appeal is made to all who can sing Christmas carols to come to the Chamber of Commerce at 6:45 p. m. Monday to rehearse the carols before going to the Community Christmas tree.

This is the one time in the year when the community gets together in an event of this kind and it is hoped that a large number of singers will be on hand. All the church choirs have been invited to attend but any person, whether a member of a choir or not, is invited.

There are few cities in the country which do not have a tree and carols at Christmas time and it is hoped that Salem will turn out in good style for this Christmas observance.

It often happens that a person will think, "There will be plenty of singers there without me." That is just what kills a good thing. Too many have the same thought at the same time. This is an opportunity for every one to show his civic spirit and to enter heartily into a celebration which can be made successful only by complete co-operation.

The carols will include such old favorites as "O Come All Ye Faithful," "Silent Night," "Hark, the Herald Angels Sing," "O Little Town of Bethlehem," and "O Come Upon the Midnight Clear."

The erection of the tree has been made possible by the kindness of the Salem Lighting company whose employees erected and illuminated the tree. The Hanny Drying company gave a liberal donation of time in hauling the tree from the farm of Robert Maxwell.

The police and fire departments will take charge of turning the lights on and off in the evenings. The Bliss company is furnishing the large track for the singers.

Community Service undertook the task of collecting the fund and arranging the program.

ARSENIC BLAMED
FOR TWO DEATHS

Two Patients Die, Prob
Reveals Mistake On
Bottle Label.

Columbus, Dec. 22.—Arsenic administered by a local physician, is said to have caused the death of two of his patients, Mrs. Minnie T. Davies, Columbus and Mrs. Nellie Paul, Circleville, and nearly caused the death of another patient, Dr. W. D. Murphy, Columbus.

Responsibility has been placed by a committee of doctors who have just completed a probe at the warehouse of a local wholesale drug firm at whose plant it is claimed, the arsenic was falsely labeled "Acacia."

As a preliminary to X-ray examinations Mrs. Davies and Mrs. Paul, both suffering from stomach trouble, were given what was believed to have been barium and acacia. Their deaths, following almost immediately, were attributed to heart disease.

The saving of the life of Dr. Murphy, also afflicted with the same trouble, is credited to his vomiting when the barium and arsenic were administered to him.

Physicians pointed out that they rely on druggists' labels in their use of arsenic and acacia, both of which in their original state, it is claimed, are white and odorless powders.

Rev. Eastman Gives Views
On Church Controversy

The following statement on the Episcopal church controversy in the east, which has been attracting so much attention, has been submitted to The News by Rev. P. S. Eastman, rector of the Church of Our Saviour: "I am amazed and grieved at many published reports regarding 'supposed' statements by prominent clergymen of the Episcopal church. 'The New York papers appear to be especially guilty in allowing sensational reports to be published each day only to be explained away in the next issue."

"At a recent meeting of the House of Bishops in Dallas, Tex., when only 45 out of 135 bishops were present a very strong, dogmatic pastoral letter was prepared to be read in every church. Some clergymen thought these bishops exceeded their authority and that a dogmatic state-

THREE ESCAPE
DEATH UNDER
TRAIN WHEELS

Auto Breaks On Tracks As
Freight Approaches At
Lincoln Crossing.

FOUR MEN INJURED
IN AUTO COLLISION

Dense Fog Causes Crash On
Salem-Lisbon Road;
Other Mishaps.

Three persons were saved from possible death under the wheels of a fast freight train for the second time at the same place in a month when the rear axle of a touring car broke just as the car had passed over the last rail at the Lisbon rd. crossing of the Pennsylvania at 11 p. m. Friday.

Three persons, unidentified, came to Salem and made the rest of their trip on an interurban after their narrow escape.

Passing motorists say the car was running at a fair speed and as it crossed the tracks a freight came into view. It is believed that the driver put on full speed to beat the train and the axle broke because of the jolting over the rails.

All three passengers leaped to safety, pulled their car from the track and ran back in time to avoid being hit by the train.

About a month ago, a similar accident occurred at the same crossing. A small car was struck by the train after the axle broke as the machine was crossing the last rail.

Two large cars came together in Albany at 2 a. m. Saturday in the densest fog that has enveloped this section this year. Neither driver was held to blame because it was impossible to see a few feet ahead.

At a turn in the road the machines crashed, the two drivers escaping unhurt but one car, towed in by Chalfant's, was a complete wreck, having been hit broadside.

Several other minor accidents were reported Friday night, all of the mishaps being due to the fog.

Four Injured In Crash

As a direct result of the dense fog one auto was badly wrecked and four young men were injured in a crash on the Salem-Lisbon rd. north of Lisbon late Friday night.

The injured are Dorman Vale, Gordon Dalton and Claude Dawson, East Liverpool; Walter Redfoot, Leontia.

Redfoot was driving south in a coupe and on account of the fog was "hugging" the west side of the highway. A touring car was being driven north, the three men in this car being driven to Salem to catch a train.

The coupe was hit head on and the front of it was wrecked, the axle broken.

Republicans Of Ohio
Counties On Record
As Backing Coolidge

Cleveland, Dec. 22.—With the Cuyahoga county Republican executive committee unanimously on record as favoring the nomination of President Coolidge at the Cleveland convention next June, doubts as to the attitude of Maurice Maeschke, Republican county leader, who has been reported as friendly to Senator Hiram Johnson, had been dissolved today.

It was apparent that generally speaking the primary fight next April would find party organizations generally lining up behind President Coolidge.

Earlier in the week the Hamilton county organization had gone on record to the same effect, and similar action was predicted in Lucas, Franklin and Montgomery counties.

Community House
Robbed At Night

Thieves, believed to be local amateur talent, broke into the Salem Community House Friday night and secured \$2 in money and \$1 in stamps. The entire place was ransacked, chairs overturned and desks were broken into.

Chief Thompson, who investigated the robbery Saturday morning, stated that he has no clues as to the identity of the yeggs. Someone familiar with the place or who has visited it is thought to have been the one who did the work. No valuables are ever kept in the place.

Chicago Is Seeking
1924 Convention Of
Democratic Leaders

Chicago, Dec. 22.—A concerted effort has been made today in Chicago to bring the Democratic national convention to this city.

Linked with a pilgrimage of Chicago business and church leaders, headed by Mayor Dever, to the national capital, was the action of Fred W. Upham, Republican national committee's treasurer, in turning over to George Brennan, Illinois Democratic leader, sums pledged to bring the Republican convention here. They will be useless to the Republicans of Illinois since the G. O. P. meeting was awarded to Cleveland.

Ford For Coolidge

HENRY FORD sends a political shock in several directions in his unequivocal announcement that he is for Coolidge.

The Ford-for-President clubs which have been cranking a boom for the automobile manufacturer must stagger back with sprained wrists. Mr. Ford's declaration that he would "never for a moment think of running against Calvin Coolidge for president on any ticket whatever" is a terrible backfire.

The Democratic candidates who have feared that Ford might steal a march on them in their own convention must shiver at Henry's statement that "50 per cent of the people feel perfectly safe with Coolidge."

The Republicans who hope to prevent President Coolidge's nomination at Cleveland next year must be pained to hear that Mr. Ford, who has a remarkable instinct for knowing what the millions want, says the millions want Calvin Coolidge; that 50 per cent of them want Calvin Coolidge.

The radicals who hoped to cash in on Henry Ford's popularity and wealth now have the grief of hearing Mr. Ford calmly announce that, as the country feels safe with Calvin Coolidge, it would be a mistake not to keep him in the White House.

Henry Ford's endorsement of Coolidge goes far and counts much in the interest of the president's political future. Ford has an enormous following with the American voters.

For Our Taxes

WHAT do we get for our taxes? Do we get a dollar's worth of service for every dollar we pay? That is a question for the taxpayer to ask. It is the question that those charged with the spending of taxes must answer. The amount of taxes we pay becomes comparatively unimportant, if we get in return from each dollar a dollar's worth of that which we as individuals or as a community require for our welfare. Taxes might be double what they are and yet fully worth it. Taxes never will return to the taxpayer as direct dollars and cents. He can never measure his benefits from his tax payments by actual money returns. He can only measure by the benefits that come to him indirectly. Learning to measure those benefits of taxes is one of the difficult lessons American people face.

They Must All Go!

VARIOUS representative and senators in congress are demanding another international conference to complete the work that failed to get through the Harding conference which opened in 1921.

The truth is the Harding conference pushed limitation of armament and the elimination of hellish devices for human slaughter about as far as that particular conference could go.

The chief unfinished business was the submarine, the bombing airplane and poison gas.

By calling another conference to deal with these problems President Coolidge could do a master stroke for humanity in supplementing President Harding's great work.

The submarine, the bombing airplane and poison gas have got to go.

20 YEARS AGO

(Issue of Dec. 22, 1903.)

B. M. French, engineer for the Stark Electric Railroad company, and assistant, W. S. Ruhl, went to Alliance this morning where they will run some lines for track connections which will enable the company to run the fast limited cars which they propose running between this city and Canton.

Monday, the marriage license record was broken when 13 couples were granted papers at Lisbon.
J. D. Paxson and E. R. Merrell went to Damascus this morning to begin the work of clearing the property on which will be erected the sub-power station and depot for the Stark Electric Railroad company of that place.

The National Prohibition convention is called for June 29 at Kansas City.
Fatsy Cosgrove of Perry st. is slow-

ly recovering from the effects of poisoning from linseed covered papers to make ornamental chairs of paper for the decoration of the Christmas tree. Catherine, two-year-old daughter of Mr. and Mrs. Howard B. Garfield, died of diphtheria Monday afternoon.

The Wofford foundry will close down this afternoon for the purpose of making some extensive repairs to the plant.

Miss Rachel Bane of Wilona, formerly of Philadelphia, and Ozon Bracken of Columbia, will be united in marriage at the Friends meeting house in Wilona Christmas morning.

George L. Fisher, instructor in penmanship and writing at the Salem Business College, left today for his home in Cincinnati for the holiday season.

Miss Nella Lowrey, Garfield ave., has issued invitations for a card party Christmas evening.

Damage Done by One Bush.

A special study to determine the extent of infection and loss from a single bush was made by one of the state leaders of barberry eradication, says the Scientific American. The outbreak of stem rust which started from a bush traveled in one direction, at least, for about five miles. The total wheat area affected on 18 different farms was 903 acres. The average yield for that year was only 37 per cent of what it would have been without the black stem rust, or a total loss in yield of 12,250 bushels. At a dollar a bushel the combined money loss from this single bush in this one direction was \$12,250, of an average loss to each farmer of \$836 worth of wheat. A barberry bush with a \$10,000 potential damage possibility can be destroyed with ten pounds of salt or an hour's work with a grub hoe.

POISONING FROM DYED FURS

Chemical With Formidable Name Is Blamed in England for Serious Skin Affections.

Last winter and the winter before many cases of a peculiar skin poisoning of women were reported in England. The principal symptoms were hives and itching with itching and burning, so severe in some cases as to prevent sleep for several nights.

Investigation has shown that the trouble came from wearing furs, chiefly rabbit dyed to imitate beaver, says Hygeia. On analysis the dye was found to be metaphenylenediamine. The dye apparently had not been fixed properly, so that a part was removed when it came in contact with moist skin.

Metaphenylenediamine is closely related chemically to paraphenylenediamine, which has been much used in this country as a constituent of hair dyes, and as a fur dye. Numerous cases of severe poisoning have resulted in past years in this country from the use of its hair dye and of dyed furs.

There appears to be great variability in sensitivity among different persons. Most persons who use the hair dyes or who wear dyed furs suffer no inconvenience, but occasionally one develops alarming symptoms. It would be well for persons who wear dyed furs to remember that irritation of the skin may be due to their furs. Furs that have caused poisoning may be recolored with some dye that is properly set and will not rub off.

Gloves are something every man must have whether they are street gloves, dress gloves, driving gauntlets, mochas, suedes, kids, bucks, chamois or wool. We will help you select them and will exchange the size at any time.

Prices 50c to \$7.50.

Why the Christmas Savings Club?

FIRST—Regular deposits of a specified sum for 50 weeks create a habit. Habit brings ease—just as many little steps taught you to walk.

SECOND—Self-respect helps to prevent failure. Nobody must think you lack determination to carry the plan through.

THIRD—To help hold yourself to the plan. Every member agrees that his deposits may not be withdrawn until the end of the 50 weeks. Then you receive 4% interest on your check.

The Farmers National Bank

"Service with a Smile"

Lights to Kill Insects.

One Texas farmer has doubled his yield of cotton by placing lights at intervals in his field and under the lights putting basins of water to catch the unwary insects.

The scheme sounds reasonable. The same thing gets the human being.

The bright lights of the big city attract the attention of the unwary boy and girl from the happy country home and has been the means of doubling the yield of broken hearts, blasted lives and degeneration along the brightly colored broadways of the country as well as providing a testing place for those with characters of true blue. The scheme works so well on people it would be a wonder if the bugs could not be caught by the same bait that is so alluring to man.

Sunday school, 9:45; preaching at 11; Luther league, 8; Christmas exercises, 7:30.

Actress Answers Physician's Suit With Suit.

Miss Doris Keane

When Miss Doris Keane, famous American actress, was stricken ill in Paris she summoned Dr. Charles F. A. Locke of New York there by cable to perform an operation, and he spent \$1,000 getting there. When she learned what the operation would cost, the doctor alleges, she refused to submit to it and paid him only \$1,000. He is suing her for \$20,000 in New York. She has answered with a \$50,000 suit, alleging "the physician's unsympathetic attitude made her ill."

SANTA FOR ITALIAN KIDDIES

Befana, Good Fairy, Is Supposed to Fill Stockings With Toys on Twelfth Night.

THE character in Italian childhood lore corresponding to our Santa Claus is Befana, a good fairy who is supposed to fill the children's stockings with toys on Twelfth Night. She does not, however, come down the chimney, and the stockings are hung in the child's bedroom. When someone enters to fill the stocking, the child, according to a very ancient practice, cries out "Ecco la Befana."

The legend concerning this lady is that the Magi, while on their way to Bethlehem, stopped at her home, but found her too busy with household affairs to entertain them. She told them that she would see them on their return, but they went back by another route, and therefore Befana comes out in search of them every Twelfth Night. Her name is a corruption of Epiphany, which is Jan. 6, the twelfth night after Christmas, according to the church calendar.

"Centrifugal" Car Wheels. Of the steel car wheels on the market probably the most novel, says the Scientific American, is the one known as the Davis wheel, which is cast steel of special composition. The wheel is cast in a mold that is placed on a revolving table. The motion throws the liquid steel to the outer edge of the mold, where it cools first, thus forming the tread of the wheel. As the pouring starts - ferromanganese is forced into the molten metal; and as the rim of the mold fills up the jet of manganese is gradually reduced so that the central part of the wheel is plain carbon steel.

Deadly Tropical Spiders. Several species of poisonous spiders in tropical countries are so large and formidable that the natives give them a wide berth. Probably the most feared of these is the great crab spider, which is as large as a human hand and does not spin a web of any kind. The strength of its legs and talons is phenomenal, enabling it to cling to smooth or rough surfaces with equal tenacity. The bite is very painful, and, although not necessarily fatal, if neglected for any length of time blood poisoning is almost sure to set in.

Swan Fountain Pens

The very best Fountain Pen made, guaranteed, from \$1.75 to \$10.00. Ingersoll Pencils from 50c up to \$7.00. Combination Pen and Pencil Sets. All Dolls one-fourth off.

If Everyone in the Family Gave Him Shirts--He Wouldn't Have Too Many

We get this information from knowing men. We have yet to see a man have too many shirts—and we have never known a holiday when the store was closed that somebody wasn't short a shirt.

At \$1.50, this display holds a wonderful lot of neat dress patterns and if you want to make a gift de lux—give three of his size.

Or at \$1.00, \$2.00 to \$7.50 come the silks and silk stripes that are so beautiful that one makes a gift that the one who receives it will be won by the one who sent it.

The men need shirts—and you need look no longer. Xmas Neckwear—4000 strong.

Sweaters in a hundred hues.

Bath Robes—better than his old one.

Warm Gloves for comfort and dress.

A real gift—a Suit or Overcoat for men and boys.

HAD A NIGHT OF TROUBLE

Story Told in Chicago Newspaper Will Be Declared a Libel by the Loyal Scot.

A Scottish laird and his servant, Sandy, were on their way home on horseback late at night. Both had been partaking liberally of a spirit which enjoys a certain measure of popularity in their country. At a ford where the bank was steep the laird fell head-first into the creek. He scrambled up and shouted to his servant:

"Hold on, Sandy! Something fell off—I heard it splash!"

Sandy climbed down from the saddle and waded about blindly in the shallow water. At last he seized on the laird.

"Why, it's yerself, mon!"

"No, Sandy," the master declared, stoutly. "It can't be me—here I am. Then he added: "But if it is me get me back on the horse."

Sandy helped the laird to the horse and hoisted him up. In the dark the rider was faced the wrong way round. "Give me the reins," the master ordered.

Sandy felt about the horse's rump, and then cried out, clutching the tail: "It wair the horse's head as fell off—nothin's left but the mane!"

"Give me the mane, then," the laird directed, stolidly.

So presently, when he had the tail grasped firmly in both hands and Sandy had mounted, the procession began to move. Whereat the laird shouted in dismay: "Hold on, Sandy! It's gaein' the wrang way!"—Chicago Daily News.

LACK THE "WILL TO LIVE"

Cree Tribe of Canadian Indians Will Soon Have Disappeared From the Earth.

The Cree Indians are wards of the Canadian government. When Canada took their country she became responsible for their future. In particular, she pays each one yearly \$5 in cash and, in the words of the treaty, this will be paid "while the sun shines and water flows."

But they are dying out. They have "not the will to live." In a certain district within recent times there were 30,000 Indians. Today there are 3,000. They drink tea to excess. They smoke tobacco to excess. The women and the little children smoke. Some are tubercular. And they keep dying.

They are honest and good natured, but their moral fiber has weakened. They loaf and slouch around the posts and have the mentality of emotional children and their delicate, weathered faces will soon be but a memory, writes a Hudson Bay correspondent of the London Times.

Just Like Uncle.

Big sister's beau was a college athlete. And because her seven-year-old brother admired him so much, she permitted him to come into the library and chat with the beau a while. Like two pals they talked together about football and basketball. "If you expect to grow up and make a basketball player," the athlete winked at sister as he said it, "you will have to learn to chew tobacco. All athletes chew tobacco."

"Do you?" little brother asked. The beau nodded. Then little brother turned to sister. "You better lay off him right now," he warned, "cause it made you sick when you had to kiss Uncle Bob when he was here because he chewed tobacco. I'll run and tell dad he needn't worry over you ever marrying this fellow."

And just then little brother was banished from the room.

Concerning Moonlight.

It is probable that very few persons are aware of the fact that the full moon gives several times more than twice the light of the half moon. They may be still more surprised to learn that the ratio is approximately as nine to one.

Stebbins and Brown, taking advantage of the extreme sensitivity to light of a selenium cell, measured the amount of light coming from the moon at different phases, with the result above mentioned. The reason for the remarkable difference shown is to be found in the varying angles of reflection presented by the roughened surfaces of our satellite to the sun. The moon is brighter between first quarter and full than between full and last quarter.—New York Herald.

Used to It.

His automobile had balked, as automobiles will, and even if he was Robert Lee Morrell, chairman of the Automobile association, he couldn't persuade it to go. Fruitlessly he labored, with oilcan and monkey wrench, until he was hot, dirty and disgusted, and only the presence of a crowd of children prevented him from expressing himself as the situation demanded. But at last he must speak or explode. Near him was a sweet little maiden with golden hair and deep blue eyes.

"Run away, little girl," he said, "there are a few things I would like to say."

"Go right ahead," said the child; "my pa has an auto, too."—Exchange.

Indian Dances at 107.

Barelegs, reputed to be one hundred and seven years old, the oldest Indian of the Osage tribe, lives in Grayhorse, Okla. Although he is unusually stooped and always walks with a cane, he enjoys the best of health and participates in all Indian events, even the dances. He carries out the customs of the Osage tribe by wearing blankets and moccasins. He rides a horse and seldom rides in a car.—Daily Oklahoman.

LIFE IN PRISON FOR KLAN EDITOR

Atlanta, Ga., Dec. 22.—Phil E. Fox, former Ku Klux Klan editor, today faced life confinement behind prison bars after being found guilty of murdering Atty. W. S. Coburn here a little less than two months ago.

The verdict, returned by the jury late yesterday after nine hours of deliberation, carried a recommendation of mercy—all that saved Fox from death by hanging.

His attorneys today were preparing an appeal for a new trial. The appeal shot and killed Coburn here on Nov. 5. He walked into the attorney's private office, deliberately pulled out an automatic pistol and began firing without warning. The murder grew out of discord within Ku Klux Klan ranks.

Silk Hose, silk and fibre mixed, good wearing number, \$1.00 pair.
Men's Silk Socks, boxed, black and colors, at \$1.00 pair.

RIVETS SHOT THROUGH HOSE

Compressed Air Device is Now Largely Taking the Place of Passing by Hand.

For years it has been the common practice to use a bucket and tongs in passing rivets by hand. This method not only has been expensive but has been accompanied by many dangers. Now we have perfected a system of distributing red-hot rivets by compressed air through a flexible metallic hose.

This new apparatus consists of a compressed air gun and storage tank. In addition to the metal hose which leads from the forge to the elevator, with this plan the forgerman draws the heated rivet from the fire, drops it into a receptacle at the end of the hose, and here the weight of the rivet opens a valve that again closes automatically. Immediately the forgerman's foot on a pedal applies the force of the compressed air, and the rivet is shot through the hose to the place where it is to be used, arriving free from scale and without any possibility of accident.

In actual practice red-hot rivets have been thus carried 125 feet in seven seconds, with an air pressure of less than four pounds. In addition to the advantage of greater safety, this method has shown a 20 per cent saving in the cost of operation.—Floyd W. Parsons in the Saturday Evening Post.

SAVED IN JUNGLE BY PLANES

Scientist's Wife, Badly Injured, Brought to the Hospital in the Nick of Time.

After an S. O. S. was flashed out over hundreds of miles of Panama jungles by the dispatch of a native runner more than seventy-five miles to the nearest telegraph station, three United States army airplanes penetrated the wilderness 320 miles and rescued Mrs. Helen T. Gaige, wife of Prof. Frederick M. Gaige of the University of Michigan. It was learned upon the arrival of the couple at New York.

Professor and Mrs. Gaige left this country last February with the intention of remaining in the jungle 18 months to study reptiles. They had gone hundreds of miles and were near the border of Costa Rica when Mrs. Gaige was wounded by an accidental discharge of her shotgun. Her husband administered first aid and dispatched a runner to a little settlement named David, about seventy-five miles away, to telegraph a request for assistance to Dr. S. J. South, American minister to Panama, in Panama City.

Professor Gaige and his party then started out to follow the runner, reaching David in three days. Meanwhile, Minister South forwarded the S. O. S. to France field, the army aviation base, and a Martin bomber and two other planes were sent out to find the party.

As It Will Be.

"Young man, have you been examined by the bureau of censurers?"

"Yes, sir."

"And sterilized by the board of health?"

"Yes, sir."

"Has the X-ray revealed any traces of possible ancestral alcohol in your system?"

"Not a trace."

"Are you nicotineless?"

"One hundred per cent."

"Can you repeat all the hymns in the Methodist, Presbyterian and Baptist hymn books?"

"By heart."

"Did you ever lose your temper and say 'Good gracious' or 'Fudge'?"

"Never!"

"Then, sir, come in and I will let you hold my daughter's hand for 15 minutes in my presence, and if you behave yourself in a seemly manner, tomorrow I will extend this period to 20 minutes."—Exchange.

Grand Canal of China.

The Grand canal of China is by far the longest canal in the world. It reaches from Hangchow to Tientsin, the port of Peking, and covers a distance of nearly 1,000 miles. It crosses two of the world's largest rivers, the Hwang and the Yangtze.

For about 130 miles north of the Yangtze the canal is still navigable, but from that point to Tientsin it is choked with mud and is generally derelict. A plan is now on foot to reconstruct the northern sections. For the time being only about seven million dollars can be devoted to work that will put in order a section 100 miles in length. The reconstruction is in the hands of American engineers.—Exchange.

Convenient Potato Masher.

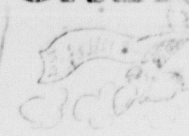

A potato masher, devised by Dr. Richard D. Roderick of Hazleton, Pa., is of novel shape, consisting of a segment of a cylinder. Across the bottom of the masher is attached the usual mashing screen. The handle is positioned directly above this screen. As the potato masher conforms to the contour of the inner portion of the container in which the potatoes have been cooked, its shape facilitates the mashing of the potatoes within the container.

If We Didn't Have Machines.

If we removed from the earth all the power-driven machines now operating, it would be impossible to crowd onto our globe sufficient people to produce the commodities now made. If we were to revert to the old method of making wire nails by hand, this job alone would require the daily effort of more workers than are now engaged in producing all our coal.—Floyd W. Parsons in the Saturday Evening Post.

BRINGING UP FATHER

Botanical Ascents.

The "botanical ascents" of Mount Katahdin by an American scientist suggested the possibilities of intellectual entertainment and agreeable acquaintance with nature that are offered by easily ascended mountains. No mountain that rises to a height of several thousand feet above the neighboring country fails to exhibit a most interesting variety in the succession of the kinds of plants and trees that the climber finds covering it as he ascends.

And not only the person having some knowledge of botany enjoys this rapid change of surroundings, but a similar pleasure is in store for the geologist, who sometimes finds that a mountain is like a prepared section of a part of the earth's crust; for the entomologist, who discovers different insects at the top from those that inhabit the lower slopes; for the ornithologist, who finds that birds have preferences as to elevation, and in fact for all students of nature.—Washington Star.

Sure of His Place.

She is a young widow in the early thirties, who recently married one of Indianapolis' popular bachelors. And to his annoyance she often talks of her past husbands. The other evening they were at a dinner when she turned to the guest of honor, "Are you married?"

The guest of honor made a negative reply. "And haven't you ever been married?" came the second question. Again the guest of honor shook her head. "Oh," the guest boasted ably, "I've had three. He is my third."

"Yes, and you last, my dear," the husband snapped. "You might just as well know now as at any time that my name is going to be on your tombstone."—Indianapolis News.

An Alabama Morning.

Who is it that does not love to hear the song bird in the cool, shady clump and hear the shrill call of the chime-cleer in a neighbor's yard, the clatter of the hoe on the hillside and a dicker's song in the distance, and the command of gee and haw on every hilltop, and the bleating of the calf down in the meadows? Oh, boy! as I pass along the sweet honeysuckle vines by the roadside or wander along the banks of the little creek with beauty and sweetness in the air and wild flowers blooming everywhere. Wouldn't you feel supremely happy? Just take an early morning walk about two miles out and see if you don't come in contact with some of the things mentioned above.—Louisville Headlight.

A Born Driver.

Mrs. Newkirk—Why didn't you bring baby back sooner? You've had him out a long time.

The Nursemaid—But he wanted a long ride. Every time I came to a corner he had his arm out of his cab signaling for a turn.

LADIES

When irregular or suppressed, Triumph Pills. Safe and dependable in all proper cases. Do not send a drug store. Do not experiment with others; save disappointment. Write for "Relief" and particulars, its free Address: National Medical Institute, Milwaukee, Wis.

In Sweaters you will not see a more complete line. Brushed wool and novelty close knits for sport wear.

Plain and conservative coats for the business man. Heavy coats and work coats any thing you may desire. They are priced right.

"Make Salem A Home Owning Town"

ONLY \$2,000 DOWN

Get this fine 73-acre farm, only 3 1/2 miles from Salem, right on improved road; all sandy loam soil; 55 acres farm land, balance in good pasture; about 1 1/2 acres of fruit of all kinds. Buildings consist of good nine-room state roof farm house; water at back door; good barn also two chicken houses, one 16x60, one 12x29; good granary and garage. Priced at only \$6,000.

Buildings alone are worth more than price of whole farm, with only \$2,000 cash, balance on very reasonable terms at 6 per cent interest.

Now if you are thinking of buying a farm don't delay. Come in and see us as this is the biggest farm bargain offered in the last five years. For further information see

E.E. HANNA Phone 314
12 Broadway

The Sun Shines East and the Sun Shines West. Here's the Place You Will Like Best

Twenty-six acres located 1/2 mile south of Winona, which has stores, school and church. Free service to high school; 5 1/2 miles to Salem, 1/2 mile from good brick road. Has eight acres of good timber which is valued at about \$1000. Variety of good fruit. Is improved with a fine two-story eight room state roof house; complete bath; furnace, steam heat, acetylene lights; fine basement. Barn 20x40; water at barn. All good outside necessary buildings.

We can offer you one team of good horses, one Jersey cow, about 100 Rhode Island Red chickens, all the hay, straw and grain, good two-horse wagon, buggy, plow, harrow, one-horse cultivator, one set double work harness, one set single driving harness and many other small tools; in fact everything goes except the household goods at the small sum of \$6,500. Just think of this fine farm of 26 acres, all equipped, at a price of an ordinary city home. If you are interested in buying a farm, come in today and do not put it off until tomorrow for this wonderful home will soon be in the hands of new owners.

"TENDERING" THE SHEEP

SOMETIMES the thoughts of little folks are far deeper than our own. They are unconsciously nearer to the soul of things and more in the divine secrets. Few of us but would give much could we feel again the romantic atmosphere that used to be such a delightful fog at Christmas time. No later imaginations have equalled those which once strained our ears as we sat up in bed, listening for the reindeer upon the roof, the sleigh bells of Santa Claus. With what ecstatic joy we used to explore the stuffed stockings! There are Christmas expressions that still exist in faded note books, taken-down child-like remarks that bring back happy days of Christmas associations. "I know a Christmas carol," said little Rose, "it's about the Good Shepherd, tendering the sheep."—C. G. Hazard.

HAZARDS SEEN IN STORE AND HOME

Miller Warns Against Fire During Holiday Season.

EXTRA PRECAUTIONS URGED

Campaign Launched to Educate Ohio School Pupils to the Value of Patronizing Only the Best Motion Pictures—Low Salaries Cause of Help Shortage at Girls' School. Officials Seek Relief For Cities.

Columbus, Dec. 21.—A warning against fire during the holiday shopping season is sounded by State Fire Marshal Louis F. Miller, who issued a bulletin calling the attention of the merchants and the public in general to the usual crowded condition of stores at this time, when an unusually large quantity of inflammable merchandise is displayed to throngs of purchasers. He urges the closest cooperation between the display men and the electricians in connection with carrying out of display plans for the season.

Marshal Miller also calls attention to the high wattage lamps that are now used for store lighting and urges special care in removing paper shades and other inflammable materials from close proximity to these lamps. Show window enclosures are brilliantly lighted these nights and lack of ventilation sometimes permits heat to accumulate about these lamps, making it advisable to keep combustible goods at a safe distance from these heat producing units.

"The electrical fixtures should be used exclusively to support the lamps and shades," the fire marshal stated, "and in contact with either electric wires or fixtures. It is also important to keep tinsel and other metallic decorations well away from lamps or sockets, as they are likely to cause short circuits. These precautions are dictated by practical experience."

Attention is also directed to the Christmas tree in the home, which should, under all circumstances, be electrically illuminated. The open flame of the old tallow candle should be snuffed out forever, as many a happy family has been plunged into mourning by a Christmas tree that was ignited by candles. "If candles are used at all, do not leave the children alone in the same room while the candles are lighted. Use judgment in placing the candles so that they may not set fire to the tree or decorations. Be sure the tree is on a secure base, so it will not lean or topple over. Never leave the house for a moment while the tapers are burning."

According to the fire marshal, care should be used not to hang Christmas greenery near the gas grate or electric light. As soon as the greens begin to die take them out of the house, he advises. Do not trim the Christmas tree or Santa Claus in cotton, and be sure that the tree decorations are of the non-inflammable kind. It was advised.

The state department of education has inaugurated a campaign to be carried out in the various high schools throughout the state, in which the students themselves will be asked to determine the acceptability of various films. This step has been decided upon in an effort to educate the boys and girls in Ohio schools to the value of patronizing only the best motion pictures.

The campaign calls for the adoption of better film committees from the English classes in the school, whose duty it will be to review the various films showing in their town or city and pass judgment on their value to school children. The remaining students in the schools will then be requested to attend only the films given favorable sanction by this reviewing committee. It is expected that by this move a newer element will be introduced into the school life of the students that will prove beneficial in that the students may in this way acquire a taste for better type of literature and drama. It may also pave the way for a change in the type of pictures produced in the movie world. Vernon M. Riegel, state director of education and head of the Ohio board of film censors, believes.

Because of low salaries there is a serious shortage of help at the Girls Industrial school near Delaware. This was reported to John E. Harper, director of public welfare, by Mrs. Margaret Elton, the new chief matron who said that it was almost impossible to secure competent help to remain at the institution, unless, as in some cases, they remained because of their interest in the work.

As an illustration of this love of the work and the real reason for the shortage of help at the institution, it was pointed out that two of the cottage mothers had taken their entire salary for the month of December and were spending it for presents for the girls of their cottage, or "their family," as they are called in the school. And it is noticeable

Persons who want anything know that The News is the Want Medium in this section. So read it.

that girls sent from the cottages of these two women, on parole, invariably make good and return to the world better for their having served a short time at the home. It was said.

The trouble with many of the employees, however, is that they go there for the wages paid, and are little concerned regarding the welfare of the inmates themselves. This class of employees remains but a short time.

"The school offers a wonderful opportunity for doing good for those who are interested in the welfare of these unfortunate girls," a state official said, "and if we could get more regular matrons who would place the work above the pay received, the results would be evident within an unusually short time."

C. V. Truax, state director of agriculture, declares that eradication of bovine tuberculosis is a health problem of statewide importance. For this reason, continuance of indemnity support for testing cattle is advocated by the director. The public, as a whole, benefits by the movement to get safe milk and it is unjust to ask only owners of tubercular cattle to bear the expense of guarding the health of the state, Mr. Truax says.

In making these tests, it is often necessary to kill cattle found to be infected so the disease will not be spread to the general public. With-out payment for the stock so slaughtered, the owners would be suffering financially for the general good, and so it is the duty of the government to repay him. The federal government helps the state in this indemnity fund. Sometimes the farmer loses much more than he can afford by the killing of his stock, and it is up to the public to help him out, Mr. Truax says.

The indemnity plan carried out completely is the best way of solving the problem, because it gives farmers as near a fair deal as possible and encourages them to co-operate steadily toward the complete eventual eradication of bovine tuberculosis, Truax believes.

The agriculture chief advocates expansion of the indemnity fund, so the fight against the disease can be rushed and its further spread checked.

A conference was held here of law directors and other officials of the larger cities of Ohio, which are facing huge deficits in their funds for operating expenses as a result of the voting down of the Taft taxation law. The object of the meeting was to determine upon some plan to get emergency relief measures out of the general assembly to take care of these cities during the ensuing year.

A committee was appointed to draft laws to be submitted to the state legislature in an effort to secure financial relief. Members of the committee include Law Director Dotson of Toledo, C. W. Osborn, city attorney-elect of Youngstown, and Law Directors Harshman and Savord of Dayton and Sandusky.

Whether a special session of the legislature will be recommended to enact special legislation for the relief of poverty-stricken cities will depend upon the action of this committee following its survey of the situation throughout the state.

The state was divided into districts with Youngstown, Zanesville, Cleveland, Toledo, Lima, Dayton, Cincinnati and Columbus as centers, and conferences of the city attorneys of municipalities in each of these districts will be called within a week, their reports to be incorporated in the survey of the general committee.

With past experience to convince them that the Hessian fly when disregarded, can easily ruin a wheat crop, farmers in all parts of Ohio this fall observed the safe sowing dates broadcast by Ohio State university and the county extension agents. Wheat sown properly after the fly-free dates now has a good start and is without infestation, according to T. H. Parks, extension entomologist.

A survey of fields in Medina county this fall showed that where wheat was sown two weeks before the safe date, as high as 52 per cent of the plants were infested with Hessian fly. The percentage of infestation gradually decreased to three when within four days of the fly-free date. Wheat sown on Sept. 24, the safe date, and on the next few days, showed no trace of the Hessian fly.

In a census he conducted recently, Professor C. E. Lively of the college of agriculture of Ohio State university has found that there are 691 children to every 1,000 rural inhabitants between the ages of 15 and 45, and only 319 children for the same number of city adults between those ages. The typical rural county has a population, he said, of 15,000, of which 4,123 are children under 15. In a typical Ohio city of the same size there would be only 3,817 children.

Professor Lively believes that since the cities get so many of these rural children in later years as important and helpful citizens, the cities should try to maintain rural schools, libraries and the like. "The country people undertake the job of raising and educating their children for future citizenship in the cities, with poorer and fewer libraries and hospitals and recreational centers than are found in the cities. Since the cities will get so many of the youngsters, it is only fair that they help pay for the rearing of them, and it is to their benefit to do so," said he.

BEAUTY, SPURNED, SHOWS CHARMS IN A THEATER LOBBY

Miami, Fla., Dec. 22.—Spurning the decision of six judges who had the day previous awarded the title of "Queen of the Revue" to Miss Ruth Doodall of Miami, and that of the "best figure" to Miss Mary Delaney of Bradley Beach, N. J., Miss Clara Lamme, 17-year-old beauty from The Hague, Holland, caused a near-riot here one night recently when she dramatically disrobed in the lobby of the Fairfax theater before hundreds of patrons about to leave the show and charmingly clad in a one-piece black bathing suit, demanded to be judged.

The 12 winners of the Bathing Girl Revue had just appeared on the stage when Miss Lamme, who had failed to win a prize, appeared and demanded to face the audience with the two main winners. Barred from the stage she awaited an auspicious moment and appeared again in the lobby, where she staged her impromptu act.

The manager was helpless. A riot call was sent in but her smile soon vanquished the stalwart police. When promised another contest in the future in which all three contestants will be judged, the young lady suddenly vanished in the crowd and the theater was soon emptied.

Miss Lamme, who is wintering in Miami with her sister, following a tour of the Bermuda and Cuba, is the daughter of a retired lawyer of The Hague. She asserts that five years ago she won a beauty contest at Scheveningen, a fashionable Holland resort, in which 500 girls were entered.

THEATRES

"Little Old New York"
Marion Davies will have a role entirely different from anything in which she has heretofore appeared and one exactly suited to her appealing personality, when she appears as Patricia O'Day in "Little Old New York" at Grand theater on Christmas day for three days. The misadventures of Patricia O'Day, played by Miss Davies in "When a Girl Was in Power," are found in "Little Old New York," but there is also a quality of wistful pathos.

which shows a new side of Miss Davies' dramatic ability. The role of Patricia has something of the character of Maude Adam's "Peter Pan" or of "Little Lord Fauntleroy" about it. Miss Davies appears most of the time as a young boy, having donned this disguise in order to inherit a fortune.

One of the most dramatic scenes in the picture and one which gives Miss Davies a wonderful opportunity for expressing emotion is on shipboard when Patricia's brother is buried at sea. The star spent several days and nights on the ocean in an old-fashioned schooner while these scenes were being made.

"The Spanish Dancer"
"The Spanish Dancer," a Herbert Brenon production for Paramount starring Pola Negri, will be the big attraction at the State theater, Tuesday and Wednesday. The story deals with the love romance of a young girl of Spain during the reign of Philip IV. Every scene has a thrill of its own and Pola Negri's role is one of extraordinary dramatic

The New ESSEX A SIX

Built by Hudson under Hudson Patents

Essex closed car comforts now cost \$170 less than ever before. Also with this lower price you get an even more attractive Coach body and a six cylinder motor built on the principle of the famous Hudson Super-Six.

It continues Essex qualities of economy and reliability, known to 135,000 owners. It adds a smoothness of performance which heretofore was exclusively Hudson's. Both cars are alike in all details that count for long satisfactory service at small operating cost.

You will like the new Essex in the nimble ease of its operation. Gears shift quietly. Steering is like guiding a bicycle, and care of the car calls for little more than keeping it lubricated. That, for the most part, is done with an oil can.

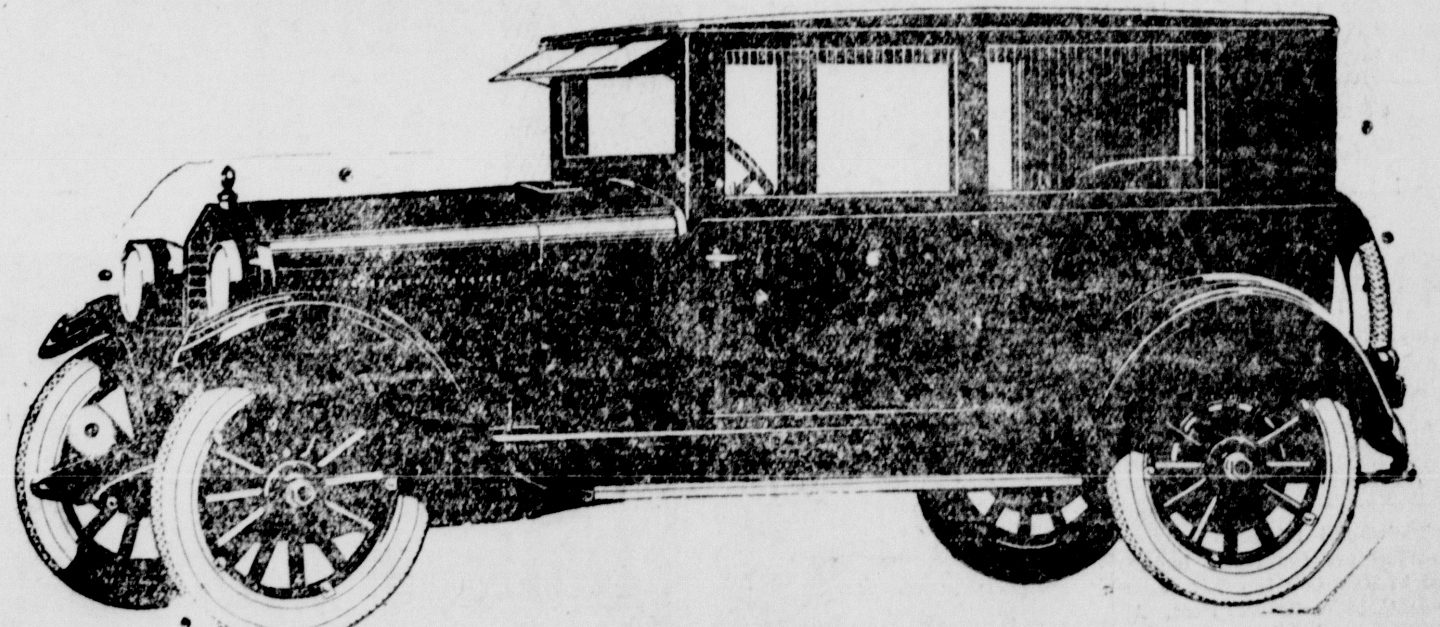

The chassis design lowers the center of gravity, giving greater comfort and safety, at all speeds, on all roads. You will be interested in seeing how this is accomplished.

Greater fuel economy is obtained. The car is lighter, longer and roomier. You will agree that from the standpoint of appearance, delightful performance, cost and reliability, the new Essex provides ideal transportation.

POOR PIANIST

Mrs. K. L. writes that she had the piano tuner at her home for several hours recently and after he had gone her laundry woman, who had been working in the basement just below, said to her: "You know that man in the parlor?"

"Yes, Annie."

"Well, I want to tell you one thing: I no like to hear him. He rotten player."—Boston Evening Transcript.

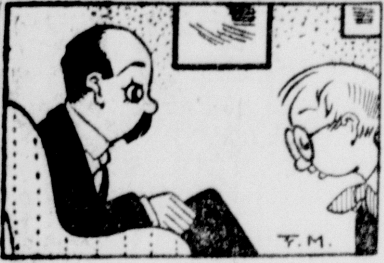

Patient Has Also a Suggestion.

Mr. Littlerest—Doctor, what did you tell me was your special treatment for sleeplessness.

Doctor—I strike at the cause or the origin of the trouble.

Mr. Littlerest—You don't say so! Well, you'll find the baby in the other room. Only don't speak him too hard."—London Tit-Bits.

IN BOSTON TOWN

Western Uncle—I suppose you go to bed with the chickens, Waldo?

Waldo—I presume, Uncle, you use the term "bed" in a purely metaphorical sense; of course, I go to bed early—chickens go to roost.

Spoke From Experience.

"A burnt child dreads the fire," read the teacher. "Now who can give me a sentence different in wording but meaning the same thing?"

There was silence for a while; then a little fellow piped up: "Please, teacher, a washed child dreads the water."

Couldn't Count Kisses.

Counsel—How many times did he kiss you?

Fair plaintiff—I was so confused that I don't remember.

Counsel—What! With the thing going on right under your nose!

Wanted a Playmate.

Only child—Oh, mother, how I wish I could be born again.

Mother—What on earth makes you wish that, dear?

Only child—Oh then I should be twins and have someone to play with.

May Happen.

"Can we ever have thought transference?"

"Radio may bring it about."

"Eh?"

"If the girls can arrange their hair in suitable wave lengths."

IN HER DEFENSE

"I don't like Addie Adder. She's two-faced."

"She never impressed me that way. I always thought it was the same old face with a different makeup."

It Will End Up the Same.

"So your son will not become an aviator after all?"

"No, he's taking up chemistry now."

"Ah, eventually he'll fly in the air anyway."

The Test.

Hub—I spend all my money on you. No man can do more than that.

Putting Wife—If you really loved me you'd be willing to run into debt for me.

Two Too Many.

Admiral Countouritis Is Ruling Greece.

Admiral Countouritis

Admiral Countouritis of the Greek navy, who acted as regent of Greece in 1920, is being reappointed regent, following the forced flight from the country of King George and Queen Elizabeth.

COX TO ANNOUNCE CANDIDACY JAN. 8

Democratic Love Feast Is Called Off But Cox Won't Be Denied.

Washington, Dec. 22.—The meeting of Democracy's leaders here in January will not be preceded by the usual Democratic "love feast"—the Jackson day dinner.

The dinner has been given up this year, largely because the idea of holding the usual "get together" goodwill banquet seems to make no appeal to Democrats. There was no enthusiasm for it and a good many arguments were advanced against it, hence it was abandoned.

For one thing, it was reported that James M. Cox, Democratic presidential nominee in 1920, intended to announce his candidacy at the Jackson day dinner here Jan. 8. That was enough to kill the dinner. It now is understood that Cox will speak at a Jackson day feast in Columbus, and reports here are that he will throw his hat in the ring at that time.

Democratic leaders here decided that there was too much danger that rival groups in the Democracy's might clash if the dinner was held.

Not only was there the danger that rival candidates might involve trouble but the wet and dry issue, the question of American participation in Europe and lesser issues on which the Democracy is not a unit seemed certain to intrude themselves upon the feast.

When the report about Cox gained currency here every effort was made to hush it. Even now there is much mystery about it and none of Cox's friends here would admit today that there was any truth in it.

COURT NEWS

Common Pleas Entries
Judgment by default was rendered in common pleas court Friday by Judge James G. Moore in the case of the Potters Saving & Loan Co., of East Liverpool against the E. H. Karcher Forging Co., for \$1,383.76 and interest at 7 per cent dating from Sept. 24 last. Cost of plaintiff in this action was allowed and a decree of foreclosure of mortgage and sale of premises was also made by the court.

In the action brought by Atty. K. L. Coburn of Salem in behalf of Lewis Davis, against the City of East Palestine for \$5,000 and a restraining order, leave was granted by the court to the defense, through its counsel, Atty. L. K. Kyles of East Palestine to file an answer by Jan. 12. The petition set forth that by reason of the sewage system of East Palestine entering Leslie Run, the property of the plaintiff is damaged.

One of the grounds of extreme cruelty Carrie Daugherty was granted a divorce from her husband, William Daugherty, upon payment of costs by the plaintiff.

Because her husband has been absent from her three years, Wilda Miranda was granted a divorce from her husband Alfred Miranda and restored to her maiden name, Wilda Grimm.

New Case Filed
Elizabeth G. Runyon, by her attorney G. D. Ingram of Wellsville seeks the recovery of \$2,600 from Atty. Charles Boyd of Wellsville, as the administrator of the estate of the late Renaldo Runyon, for many years a resident of Wellsville.

The plaintiff in her petition recites that she was employed as a music teacher in Pittsburgh, in 1919, and that when her father became ill she went to Wellsville to care for him until his death Jan. 15, 1921, for a period of 52 weeks. She asks that the estate pay her \$50 per week for the services she rendered.

Persons who want anything know The News is the Want Medium. It is the best place to get it.

DANGER IN CHEWING GRASS

Habit Is a Bad One, and May Result in Contraction of Unpleasant Disease.

Many people have been startled recently by the announcement that it is dangerous to chew grass.

A well-known athlete has been undergoing medical treatment for several months, and has had two operations on a mysterious swelling in a gland.

The disease is called actinomycosis, and is usually found in cattle, pigs, horses, and even elephants and dogs. In the case mentioned it was contracted through the habit of chewing grass while playing games, a common practice among sportsmen. In chewing grass one may consume a parasite, and there lies the danger.

Formerly this unpleasant disease was known as "wooden tongue" or "big jaw," owing to the large swellings which develop on the tongue, jaw or skin.

Actinomycosis is a chronic inflammatory disease producing pus, and is caused by a fungus, which in the case of a man attacks the jaw and neck, entering through diseased teeth or tonsils. A severe local infection is set up, which burrows its way into the tissues, distorting what it traverses and stopping at nothing unless treated in time. Bones are penetrated as easily as muscles.

HISTORIC CAPE TOWN RELIC

Stump of Old "Slave Tree" Is All That Remains as Reminder of Days of Slavery.

There is an old tree in Cape Town, in Church square, over 250 years old, and all that remains of it today is the stump, to which is affixed a brass plate and an inscription, giving an outline of its history. It is a most historic landmark, as it was there before the days of Jan van Riebeck. To this tree slaves were brought and placed on tables for exhibition and sale.

The slaves were kept in the old Supreme court building, just opposite the old tree, and it is not difficult still to picture the once familiar scene.

Slavery was abolished in 1838, but the old slave tree stood and braved the storms till November 9, 1916, when it was cut down, as it was considered unsafe. The brass plate was affixed by the owner of a store which, until the tree was cut down, had always been advertised as "under the old fir tree."

Shocking the New Member.
Father is a minister and one Sunday morning while he was greeting the members of the church I asked him for the house key. He told me that it was in his coat pocket, and his coat, as I supposed, was in the basement of the church.

There I found quite a few overcoats. I examined each one, by size and color, until I came to one which looked familiar. I laid it out on a table and began searching each pocket, but being unable to find the key, I deposited the contents of each pocket in a pile nearby. I was examining everything closely, when, alas! the door opened, disclosing a new member of the church. He gruffly asked the reason for the interference. I hurriedly explained and then fled. I have not seen him since, but I certainly do hope he does not think the minister's daughter a pickpocket.—Chicago Tribune.

Mountain Flying.
Consideration has been given to the possibility of aerial observation in the Himalayas. The range, it appears, has only six peaks above 27,000 feet high, and an aviator flying at about 23,000 or 24,000 feet should have no difficulty in crossing if the highest peaks were avoided, while if he chose certain of the gorges an altitude of some 19,000 feet would suffice. The greatest of the many obstacles to be encountered is the mountain sickness, which occurs in the highest altitudes through deficiency of oxygen. The gradual climber, going afoot, is less handicapped in this respect than the aviator rising suddenly from sea level in his machine. On the other hand, the pedestrian has more fatigue to undergo, and this practically equalizes matters.—New York Herald.

Use of Whale Meat.
Cooked perfectly in the can to a degree of tenderness unknown to devotees of the fried article, canned North Pacific whale steaks are making a hit wherever introduced. So great has been the demand for this delicious food, which has been ignored heretofore in the midst of plenty, that the pack now being prepared has long since been disposed of. According to a report just received by the Department of Commerce from Vice Consul Newcomb, Victoria, practically all the British Columbia pack will be shipped to England and there redistributed. Scarcely within recent years has the whaling season opened under more promising conditions than this year. Whales are reported early and plentiful.

Grandpa Still Winner.
It was the first baby in the family and everybody wished it to look like them. Mother said with emphasis that its tiny mouth was the exact counterpart of her rather large, full mouth; father that its little button of a nose was a counterpart of his large Roman nose, and each auntie was certain that its natural complexion resembled her acquired one.

Grandpa chuckled at them all. "Well," he finally said, "there ain't nary an argument against me claiming that its toothlessness and baldness are both like mine, is there?"

Lumbermen Determine What A Board Inch Really Is

Washington, Dec. 22.—How thick is an inch? The lumbermen of America and the industries that utilize and distribute their products agreed in conference with Secretary Hoover that in boards an inch is both 25-218 and 26-328 of an ordinary inch when the board is ready for use in the finished state.

For four years in a general way and for 18 months in particular, the lumbermen, lumber users, the forest service and the department of commerce have been trying to agree on how thick an inch is in lumber—that being the crux of the whole great problem of standardizing sizes in lumber manufacture.

The chief beneficiary from standardization in all its phases, it was stated, will be the American home-builder who buys in the analysis, 89 per cent of all lumber and yet is necessarily an inexperienced buyer. With standardization he can buy with confidence that he is buying what he should buy and that he will always get what he wants.

The manufacturers' and the technical groups generally favored a single standard of 25-328 of an inch as a lumber inch, whereas the retailers wanted 26-328 as the thickness of an inch board ready for use. When agreement seemed doubtful Secretary Hoover suggested a joint conference

World Wide Search For \$7,000,000 Swindler

Mrs. Leo Koretz, Mrs. Mary Koretz, Miss Mary Koretz and Koretz home in Chicago.

A world-wide search is being conducted for Leo Koretz, Chicago "financier," who has disappeared, after securing \$7,000,000 in selling stock in a South American venture which did not exist. He deserted his wife and three children. Among his victims was his own mother, Mrs. Mary Koretz, whom he swindled out of her fortune. Before he fled he established a trust fund of \$400,000 for her, however. She refused to accept it and turned it over to the creditors.

Hans Wagner Selects His All Time Baseball Team

J. Honus "Hans" Wagner, beloved "Flying Dutchman" of baseball, is not the least bit for himself when he picks his all-time baseball team. He has created a sensation by his announcement of his team that does not include the venerable Hans and puts Eddie Collins and Babe Ruth in the utility role.

Many thousands of players and millions of fans, will differ somewhat with Wagner's selections. But they represent Wagner's first hand information on the value of the different star players, because Honus knows them all and can talk from experience.

The pitchers, middle and right field choices will probably not be contested. But as to the others there is a wide divergence of opinion. Fred

Clarks does not look as good as Ruth for left field, and Bobby Wallace at short is surely not as good as the veteran Hans.

Wagner's team follows:

Catcher—Roger Bresnahan, Johnny Kling.
Pitcher—Cy Young, Christy Mathewson, Walter Johnson, Grover Alexander, Mordecai Brown.
First base—Jake Daubert.
Second base—Larry Lajoie.
Third base—Jimmy Collins.
Shortstop—Bobby Wallace.
Left field—Fred Clarke.
Middle field—Tris Speaker.
Right field—Ty Cobb.
Infield utility—Eddie Collins.
Outfield utility—Babe Ruth.
Manager—John J. McCraw.
Captain—Fred Clarke.

with their brother Howard Zoll and other relatives.
John Ryan, Jr., spent Sunday in Kent, visiting friends and relatives.
James Ajax of Pittsburgh, called on relatives and friends in Columbiana.
John Beard, after ten days' illness, is able to be out again and at his place of business.

Mrs. Viola Wilson and Miss Alice Wilderson of Canton, were week end visitors with relatives and friends in Columbiana.

Joseph Dickey of Salem, was a caller at the home of David Lodge and family Sunday.

Mr. and Mrs. Paul Henry of East Palestine, were callers on Dr. and Mrs. C. W. Kellogg.

Mrs. Mary Fitzpatrick was a recent visitor in East Palestine with Ray Fitzpatrick and family.

That the men folk may have mufflers as never before, we are this season showing an amazing assortment, from the deep, soft, wooly ones patterned in pastel shades, to the sleek, silky ones for more dressy occasions.

SALEM, OHIO

A TRIPLE ALLIANCE FOR MOTORING SAFETY

BALLOON Tires, oversized brakes, emergency foot control,—with these features Reo unqualifiedly puts the maximum of possible safety into motor travel. For they represent air-cushioned car motion, prompt and skid-free brake action, unhindered steering and instant, positive response to every traffic exigency.

Riding on low pressure air, Reo cars with their careful chassis balance and gentle springs offer comfort beyond description. They move at higher speed over rough roads even without vibration.

In touring, Balloon Tires permit sanely swift speeds on all roads, all day. No need for furious driving on pavements to compensate for time lost on dirt highways.

Balloon Tires give almost unbelievable certainty of driving control. They obey the driver's touch instantly when other tires hesitate.

At normal speeds they can be steered out of ruts, through loose gravel, off pavements and back on, across car tracks nearly parallel with the wheels,—all without tendency to skid.

Quick, positive, skid-free braking is assured by Balloon Tires and Reo's greatly oversized rear-wheel brakes. The latter have always been able to hold the wheels from turning.

Balloon Tires offer to the road nearly three-fourths more gripping surface than regular pneumatics. This contact area is the foothold enabling the tires to slow up the car. The larger the area, the more quickly the car stops.

By cushioning the entire chassis and body against road shock and even minor vibration, Balloon Tires cause measurable savings in general service expense, definitely increase the car life, and tend to favor greater gasoline mileage.

Reo engineers and testing experts have been actively interested in every step of Balloon Tire development, but critical withal.

All facts and facilities Reo acquired in engineering and pioneering pneumatic tires for trucks have been used in judging the actual worth of Balloon Tires.

Factory-owned test cars have covered an astonishing total of miles, supplementing equally exhaustive tests made by tire companies themselves.

Reo has pioneered and popularized many new developments in its 20 years of life, and in a spirit of well considered eagerness to adopt proved refinements Reo offers Balloon Tire equipment.

Leetonia News

Robert Kunkel of Leetonia, has the distinction of being one of the 17 star football players at Mt. Union college, who on Wednesday, Dec. 19, were honored by being given their sweat-suits and letters.

Kathryn, little daughter of Mr. and Mrs. Harry Daugherty has been out of school for more than two weeks being ill with bronchial trouble and symptoms of whooping cough.

Jesse Halverstadt is again reported to be slightly better after a relapse with typhoid fever. For several days little hope was entertained for his recovery.

Mrs. Louis Frank who has been ill is able to be out again, and attend to her household duties.

Mr. and Mrs. Ira E. Mellinger were eating in Columbiana Wednesday evening.

Mrs. Edward Herron of Washingtonville was the guest of her sister Mrs. Harry Tittler, Wednesday.

Mrs. Morris Baker, Mrs. Henry Corrie and Mrs. William Smith were shopping Wednesday.

Mrs. Merl Stambaugh spent Wednesday in Youngstown with relatives, Jefferson Road from Wadell's summer transacted business in Leetonia Wednesday.

Mrs. Sue Bixler went to Youngstown Thursday morning where she was the guest of her sister and husband.

band Mr. and Mrs. William B. Halverstadt.

Mr. and Mrs. William Metz were Youngstown shoppers Thursday.

Mr. and Mrs. Clarence Esterly and daughter Minette spent the fore part of the week in Columbiana.

Miss Helen Holland was the guest of Youngstown friends Thursday.

Leetonia is in full Christmas dress. The shop windows displaying Santa Claus are attracting the largest crowd of children. The Sunday schools of the town are preparing Christmas entertainments for Sunday and Monday evenings.

Charles Frederick spent Thursday in Youngstown on business.

The new laboratory equipments have been received in the Leetonia High school and will be a great improvement for the work of science students.

Narcis Holt, student at Wittenberg college, Springfield, is spending his vacation with his parents here.

The eyes are of little use if the mind is blind.

Attempts are being made to make an artificial lumber from the hemp waste of cordage factories.

A bag to hold scraps of soap has been patented.

With patience sour grapes will become sweet.

Rickenbacker

The Most Advanced 4-Wheel Brakes on the Market

Rickenbacker 4-Wheel Brakes are the ONLY brakes that function perfectly at all times, in all seasons, on all kinds of roads and under every conceivable condition of driving.

- the ONLY 4-WHEEL BRAKES that act precisely the same when turning as on a straight-away.
- the ONLY 4-WHEEL BRAKES that hold just as well when climbing up—or down—a mountain.
- the ONLY 4-WHEEL BRAKES that cannot lock front wheels.
- the ONLY 4-WHEEL BRAKES that always exert a greater pressure on rear than on front—and cannot be changed to do otherwise.
- the ONLY 4-WHEEL BRAKES that are fool proof—both as to driving and adjustment.
- the ONLY 4-WHEEL BRAKES that have no universals or toggle joints or exposed parts.
- the ONLY 4-WHEEL BRAKES that cannot freeze or become ice-coated in winter.
- the ONLY 4-WHEEL BRAKES that automatically lubricate themselves.
- the ONLY 4-WHEEL BRAKES that do not grab, grip or screech when suddenly applied.
- the ONLY 4-WHEEL BRAKES that add to, rather than detract from, the appearance of the car.
- the ONLY 4-WHEEL BRAKES that will not become loose and rattle after long wear.
- the ONLY 4-WHEEL BRAKES that can be adjusted perfectly by one man.

GOES BACK ON OWN ORDER

British Nobility Startled by Proposal of One of Themselves, to Abolish Hereditary Titles.

The introduction into the house of commons by the Hon. Arthur Balfour of a bill to abolish hereditary titles created more of a sensation because of the social connections of its author than because of its somewhat revolutionary nature. The Hon. Arthur was at one time a page of honor to Queen Victoria, is related to many of the noble families of England and at one time took an active part in English society.

In his earlier political career he was a liberal, but has since become an important member of the labor party. His bill, although it is not the first of its kind with which the British commons has had to deal, was greeted with wild enthusiasm by labor members and great indignation by the Tory members. The Hon. Arthur declares that, although his bill may fall of passage this time, it will become a law before many years.

East Indian Irrigation Project.
Three and a half million acres of excellent farm lands, in 14,300 square miles of India's Sutlej valley, will be thrown open to settlers at the completion of the most pretentious irrigation project attempted in India. Assistant Trade Commissioner Spofford, Calcutta, informs the Department of Commerce. During the last 30 years large tracts of waste land in the Punjab have been rendered productive to crops as a result of successful irrigation works, and for the first time in such projects the Indian government is seeing the mistake in neglecting the construction of roads along with that of canals. The government is acquiring necessary road rights to insure adequate provision for the transportation of crops to markets and railways. The whole Sutlej project will probably take nine years for completion.

Facts About Dogs.

A member of the staff of the Paris Museum of Natural History has pointed out that the dog, whose respirations number only twenty-five or thirty a minute, may, in running, acquire a rate of respiration as high as 350 a minute. The effect of this acceleration favors the dissipation of animal heat by evaporation from the pulmonary vesicles.

The dog perspires very little or not at all by the skin, pulmonary taking the place of cutaneous transpiration. It is this fact that enables the dog to pursue its game so long and persistently. Animals of the cat family, on the other hand, do not possess this peculiarity, and for that reason tigers, panthers and lions lie in wait for their prey, but do not pursue it over long distances. The bird possesses pulmonary transpiration in a very high degree.

ORIGIN OF HUMANE SOCIETIES

According to Records, They Were First Instituted in England About a Century Ago.

Humane societies are celebrating the fact that laws for the protection of animals have been in existence for 100 years. In 1822 an act of parliament was passed in England which provided for a punishment for the "ill treatment of cattle," and the act was introduced by a man named Richard Martin, who was called "Humanity Martin" because of his introduction and support of this law. Naturally the passage of the bill brought a great deal of opposition.

The opponents wanted to know why the punishment should not be inflicted for boiling lobsters and eating live oysters. Martin not only passed the law, but was the first complainant under it. He found a driver who was mercilessly beating a donkey. The poor animal was dragged into court, and very much to the surprise of the court room crowd, the driver was found guilty.

Two years after the passage of the act Martin organized the "Society for the Prevention of Cruelty to Animals." Queen Victoria later approved of the organization, and added the word "Royal" to the title, and Americans derive their own Society for the Prevention of Cruelty to Animals from this excellent example.

MINERS SEEK GOLDEN VEINS

Veterans Know That Presence of Big Nuggets Does Not Always Indicate Rich Deposits.

In a rugged, out-of-the-way region on the ocean side of the coast ranges, in Monterey county, California, gold nuggets have been found of such size as to suggest that this was once a favorite retreat of the proverbial goose that laid the golden eggs.

Matter-of-fact prospectors, however, have sought to find the veins from which such masses of gold, loosened by the weather, were washed into the stream beds. Their search has not been successful, and J. M. Hill, a United States geologist of the Department of the Interior, in a report just published, suggests that the nuggets came from rich superficial pockets in very small veins, and that no large and rich deposits are likely to be found by deep mining.

The coast ranges of California, unlike the Sierra Nevada, are not rich in gold, and the occurrence of these large nuggets is exceptional and illustrates the fact, known to many prospectors, that the discovery of a few large nuggets does not necessarily indicate the existence of a rich deposit of gold ore near the place.
